

Dear friends

We need your support

By creating an "Anti-Lager-Karte" (anti-lager-map) (for the present for Germany) we want to support leftist protests and campaigns which put up a resistance against any kind of forced accommodation of migrants and refugees. Thereby we want to emphasize those institutions that push through forced accommodations in an especially weird manner and are called „Lager“ like deportation-camps und „Ausreisezentren“. But also Mass-accommodations that are located outside of residential areas and villages or in far away forests or are surrounded by fences or walls will be considered. The exclusion of refugees can be visible as much through the geographic location of their accommodation as through the building itself (for example containers, former barracks etc.) and its enclosure and observation.

The new map wants to offer starting points and information for actions of solidarity and protests und will be published in the internet.

To obtain information about as many „Lager“ as possible, we have conceived a questionnaire, you find as an attachment here.

Please send us back the filled in forms to the following address:

FFM e.V.

Stichwort: Fragebogen

Gneisenaustraße 2a

10961 Berlin

e-mail: kmii-berlin@nadir.org

*For questions, remarks etc. please contact the e-mail address above*

If you have any other ideas or recommendations, please write them to us.

Greetings from Berlin
